## COLLEGE WOMAN'S LEAGUES

### THE WORK OF THE LEAGUES OUTLINED BY DR. GRANVILLE.

#### A Number of Leagues Already Formed and Will be Organized in Many Places.

Woman's Leagues working for the upbuilding of the Greater Gettysburg College is the form of a very important line of activity recently taken for the benefit of the college. The proposed work of the Woman's Leagues with leagues already established at Gettysburg, Pittsburg, Harrisburg and York was explained in a statement issued by President Granville last week as follows:

During the year 1908 three leagues of women were formed on the territory of Pennsylvania College. These leagues undertook by the gathering of small sums of money among themselves the support of a student secretary in the service of the college. They were located at Pittsburg, Harrisburg and York. They each adopted a simple constitution of a similar character yet not in all respects uniform. At about the same time, there was organized in Gettysburg the Pennsylvania College Aid Society. For several years the ladies of the faculties of the college and the Theological Seminary, together with the ladies of the town, had served the annual alumni collation, and they found it convenient for purely business purposes to form an association. The societies are at the present time carrying forward the work undertaken in a most successful manner.

At my inauguration as President of Pennsylvania College I expressed my gratification with the work of all these societies and believe now other leagues should be formed so that the work can be extended and expanded. The matter was brought to the attention of the Board of Trustees of the College at its recent meeting in December, and was acted upon, the following resolution being adopted:

WHEREAS, The work done by the Gettysburg Woman's Leagues in supporting the Student Secretary of the College Y. M. C. A., and furnishing and serving the Commencement and Inauguration Collations to the alumni has resulted in great good to Pennsylvania College, be it therefore,

Resolved, That the sincere thanks of the Board of Trustees be tendered to the various Gettysburg Woman's Leagues, and be it

Resolved, That the plans for the extension of their work for the benefit of Pennsylvania College and the organization of similar new leagues in new localities meet with the hearty approval of the Board of Trustees, and be it further

Resolved, That a copy of these resolutions be sent to each one of the Gettysburg Woman's Leagues.

Immediately after this action of the Board of Trustees, delegates were appointed from the three Woman's Leagues, and from Pennsylvania College Aid Society, forming a committee charged with the consideration of the organization of a Woman's General League of Pennsylvania College. Mrs. Mary G. Stuckenberg who had organized the existing leagues, was again called to the field as a member of this committee. The delegates were: Mrs. C. F. Stifel and Mrs. Kinch, of Pittsburg; Mrs. W. T. Herman, Mrs. Rue and Mrs. John F. Dapp, of Harrisburg; Mrs. L. C. Bell, Mrs. Robert E. Clare, Miss Mary Anstadt and Miss Jennie Owen, of York; Mrs. G. D. Stahley and Mrs. J. W. Richard, of Gettysburg.

On the 18th day of January this committee went into session at Gettysburg, Pa., passed a resolution to organize a Woman's General League and made uniform the Constitution and By-Laws of the sub-leagues. The report of this committee was then sent back to the sub-leagues for further action. The committee also appointed provisional officers and the members of standing committees to act until such time as a general convention should be called for the purpose of giving final form to the organization.

The proposed constitution for the General League is a simple working constitution with few extraordinary features. It provides for the payment of membership dues in the sub-leagues of not less than one dollar annually. All members of the sub-leagues are associate members of the General League; but individual membership may be obtained in the General League by the payment of a sum of money, not less than five dollars, annually. Life membership in the General League may be had by the payment of one thousand dollars, which shall be used as an endowment; and twenty-five thousand dollars shall give name to a memorial chair or memorial building and fix the use of the endowment with the concurrence of the Board of Trustees of the College. A literature committee shall have charge of the circulation of literature in the interest of the College or of an educational character. An executive committee, which shall meet quarterly, has charge of the business of the leagues from the meeting of one convention of the leagues to another. It is provided that this convention shall assemble annually, and shall be formed of delegates from the various leagues and, from the standing committees. The names of the provisional officers and the members of the standing committees are as follows: Mrs. Mary G. Stuckenberg, president; Mrs. J. F. Hartman, Lafayette Hill, first vice-president; Mrs. C. F. Stifel, Pittsburg, second vice-president; Mrs. Ellen F. Karper, Chambersburg, recording secretary; Mrs. C. F. Sanders, Gettysburg, corresponding secretary; Mrs. Harry McCreary, Indiana, treasurer.

The provisional members of the executive committee are Mrs. M. E. Richard, Mrs. G. D. Stahley, Gettysburg; Mrs. Jennie S. Croll, Princeton, N. J.; Mrs. Chas. Weiser, Mrs. L. C. Bell and Miss Mary Stieling, York; Mrs. Geo. Laufer, Newville; Mrs. Montgomery, Shippensburg. Literature Committee: Miss Carrie Musselman, Gettysburg, chairman, Miss Ruth Heny, Shippensburg, corresponding secretary; Miss Bell Bream, Gettysburg, recording secretary; Mrs. M. E. Richard, Gettysburg, treasurer; Mrs. J. B. Baker, and Miss Rachel Granville, Gettysburg; Mrs. J. F. Seebach, Lewisburg; Mrs. H. F. Berkey, Apollo, with President W. A. Granville, as advisory member.

It has been asked why women have felt it incumbent upon themselves to form these leagues for the aid of the college. We will attempt to give some of the reasons for our organization in their order.

First—The same general spirit has prompted the movement which earlier led to the forming of the Woman's Home and Foreign Missionary Society and which has caused men to enter into the Laymen's Missionary movement and the Lutheran Brotherhood organization. This spirit might be more exactly defined as a desire to give intelligent and special aid in the building up of the church through its various agencies and institutions.

Second—In this particular instance, we believe that this upbuilding may be assisted by gathering for the use of the college into one available sum the small amounts of money that women are able to give from their incomes or from their earnings. This would form a living endowment.

Third—Through the leagues, we hope to direct the giving of small bequests, gifts, which will finally form in their total a comfortable invested endowment.

Fourth—It is further our hope to so interest the women of our Church in the college as to make them glad to bring to it their best and largest gifts, either as bequests or otherwise.

Fifth—Of value equal to the financial benefits to be derived from the formation of these leagues, will be, we hope, the more intimate contact of the college with its constituency through the home and the family. The life of the Church and the home should and will, stand in better and more intelligent relation to the life and interests of our educational institutions through the mediating influences of the woman's leagues.

We believe that every loyal woman of our Church will appreciate this fact and be ready to aid the movement and that the pastors who are interested in Pennsylvania College will be glad to encourage the forming of an organization which will stand for work at a point in the Church where much work is, and always will be needed.

### Bill for a Meade Statue.

As a result of the strong movement in the Grand Army and other patriotic organizations in favor of the erection in Washington of a suitable memorial to General George G. Meade, commander of the Union Army at Gettysburg, representative J. Hampton Moore last week introduced in the House a bill providing for an appropriation of \$100,000 for the purpose. It asks for the same amount as that provided in the bill introduced in the Senate by Senator Warner, of Missouri, but it places the selection of the site and the erection of the monument under the direction of the Secretary of War, the commander-in-chief of the Grand Army, the Governor of Pennsylvania and the chairman of the Committee on Library.

### Gettysburgians Named by Minority.

In the organization of the Senate at Harrisburg, Senator Herbst offered an amended list of officers and employees which contained the names of the following from Adams County, for Assistant Sergeant at Arms, Isaac Myers of Bendersville, for Assistant Messenger, Geo. Hoffman of Arendtsville, for Assistant Door-Keeper, John Eberhart of Gettysburg, and in the House, Mr. Meyer moved a list which contained the names of S. Mac. Elcholtz of this County as one of the Desk Clerks, and the name of D. P. Delap of this County as Speaker's Clerk. We regret to say that these worthy gentlemen did not obtain the places, as the amendments were not agreed to.

Senator Martin recently read in place a bill entitled: An Act to cede jurisdiction to the United States over the Hanover Public Road in the County of Adams, leading to the scene of the cavalry fight; which was referred to Committee on Judiciary General.

### Two Primaries This Year.

It is said there will be two primaries this year unless the present Legislature changes the law. Many people have been under the impression that candidates for county and township offices will be nominated at the June primary. This is said to be a

mistake. While the amendment to the Constitution will do away with the February election it will not prevent two primaries from being held this year, one in June for the nomination of county officers and one in October or twenty-one days before election, for the nomination of borough and township officers. These latter will be nominated in October hereafter just as they have been in January in the past. We are advised that the amendment to the Constitution in no way changes the nomination of borough and township officers, except the change of the month as stated, from January to October.

Thus it will be seen that the June nominations will be only for county officers, and that candidates for borough officers, all election boards, and township officers will not take place until October, twenty-one days preceding election in November, and that while the change in the Constitution does away with the February election it does not do away with a primary, there being two as in the past, the only change being in the date for holding the one at which borough and township officers are nominated.

All this, however, may be changed by the present Legislature, and the June primary may be eliminated.

## Resolutions

At a meeting of the Gettysburg Aerie, No. 1562 F. O. E. held Friday evening, February 3rd, 1911, the following action was adopted:

Whereas—The unerring will of Providence has permitted the cruel hand of death to remove from our Aerie our Brother Edward E. McCleary, and

Whereas—Gettysburg Aerie No. 1562 F. O. E. in this little tribute of loving remembrance desires to express appropriate regard and esteem for him as one of our members, and a sense of the loss we have sustained by his death. Therefore

Resolved—That in his death we have lost a member who was ever ready to work for the success of our Aerie.

Resolved—That our sincere sympathies, although inadequate and powerless to lessen the sorrow, be extended to his bereaved wife and daughter, in this the saddest of all dispensations.

Resolved—That as a mark of respect we drape our charter for thirty days, and that this action be published in the town papers, spread upon our minutes, and an official copy sent to the bereaved family.

We heard a man say the other morning that the abbreviation for February—Feb.—means freeze everybody, and that man looked frozen in his ulster. It was apparent that he needed the kind of warmth that stays, the warmth that reaches from head to foot, all over the body. We could have told him from personal knowledge that Hood's Sarsaparilla gives permanent warmth, it invigorates the blood and speeds it along through artery and vein, and really fits men and women, boys and girls, to enjoy cold weather and resist the attacks of disease. It gives the right kind of warmth, stimulates and strengthens at the same time, and all its benefits are lasting. There may be a suggestion in this for you

It manifests itself in local aches and pains,—inflamed joints and stiff muscles,—but it cannot be cured by local applications.

Resolutions

At a meeting of the Gettysburg Aerie, No 1562 F. O. E. held Friday evening, February 3rd, 1911, the following action was adopted:

Whereas—The untimely will of Providence has permitted the cruel hand of death to remove from our Aerie our Brother Edward E. McCleary, and

Resolved—That in his death we have lost a member who was ever ready to work for the success of our Aerie.

Resolved—That our sincere sympathies, although inadequate and powerless to lessen the sorrow, be extended to his bereaved wife and daughter, in this the saddest of all dispensations.

Resolved,—That as a mark of respect we drape our charter for thirty days, and that this action be published in the town papers, spread upon our minutes, and an official copy sent to the bereaved family

We heard a man say the other morning that the abbreviation for February—Feb.—means freeze everybody, and that man looked frozen in his ulcer. It was apparent that he needed the kind of warmth that stays, the warmth that reaches from head to foot, all over the body. We could have told him from personal knowledge that Hood's Sarsaparilla gives permanent warmth, it invigorates the blood and speeds it along through artery and vein, and really fits men and women, boys and girls, to enjoy cold weather and resist the attacks of disease. It gives the right kind of warmth, stimulates and strengthens at the same time, and all its benefits are lasting. There may be a suggestion in this for you

## Spring Sales in Adams County-1911

Spring sales to be successful must have bidders who want the goods sold. Bidders go to sales because of information in hand of stock or property to be sold that they want. The business of every farmer having a sale is to give information to bidders of what is to be sold so as to induce them to come to sale. In other words every sale should be thoroughly advertised to bring the bidders and make a good sale. The COMPILER has been considered the best medium in the county for the advertisement of spring sales. Send or bring in your sale lists to the COMPILER and make sure that the thousands who read the COMPILER will have the opportunity of knowing what you have to sell and going to your sale for the advertised goods.

## Spring Sales in Adams County-1911.

Spring sales to be successful must have bidders who want the goods sold. Bidders go to sales because of information in hand of stock or property to be sold that they want. The business of every farmer having a sale is to give information to bidders of what is to be sold so as to induce them to come to sale. In other words every sale should be thoroughly advertised to bring the bidders and make a good sale. The COMPILER has been considered the best medium in the county for the advertisement of spring sales. Send or bring in your sale lists to the COMPILER and make sure that the thousands who read the COMPILER will have the opportunity of knowing what you have to sell and going to your sale for the advertised goods.

## THE FEBRUARY MAGAZINES

### WHY IMMIGRANTS DO NOT TAKE TO WORK ON FARMS

Census of the Deer Killed in the Country Last Year Runs Nearly 100,000.

In THE WORLD TO-DAY for February there is an interesting account of an attempt to get immigrants to work on farms. The writer, Nau Mashek, says:

If we had employment agencies upon which the immigrant could depend, it would do much to start him trustfully toward the country, but it would not solve the whole problem. There are many objections to farm life in itself, which it would still be difficult for the immigrant to overlook. Chief among these is the absolute change in the mode of life. Granting that the great mass of our immigration comes from the rural districts of Europe and should therefore adapt itself readily to the open country, there are still a great many differences between foreign and American farm life. European farmers live in villages, each village having its school, its church and its well established social life, so that the isolated American farmer is impressively lonely to the foreign farmer. Then, too, our food is different and unsatisfying for that reason. The wages are unquestionably better and the life more healthful, but after all many people care more for each other than they do for themselves, and these would rather get along socially on \$5 a week than prosper lonesomely on \$10.

#### Nearly 100,000 Deer Killed.

THE OUTING MAGAZINE has been trying for sometime to secure reliable estimates as to the condition of game of all kinds in this country as regards increase or decrease and protection. Of course it is practically impossible to secure anything like an accurate census of the numbers of many kinds of game, but in some cases notably that of deer, moose, elk, bear, sheep and goats fairly reliable guesses can be made by game wardens and State game commissioners.

In the February number space is given to the deer and the probable number in the States of Maine, Vermont, Massachusetts, Michigan, Minnesota, Montana, New York, Oregon, Washington, Idaho, Utah and Colorado. Letters received from the game commissioners of these States give a fairly reliable figure of the number killed during the hunting season of 1910. The number of deer in these few States is approximately 250,000.

Out of this number, for the season of 1910, the official figures show that about 40,000 deer were killed in season and probably as many more out of season. To be sure these figures do not point to any definite conclusion; being official they do not bear on the cases that evade the official eye and are often more dangerous and difficult to deal with.

These figures are offered merely as raw material for consideration and deduction. One thing, however, is sure, that the real problem of game preservation lies in the control of the local hunter.

In later issues of OUTING this subject will be discussed more thoroughly.

#### About Railway Rates in Germany.

The national railway supervision has prepared tariff rate-books for combined rail and sea routes arranged so simply that even the layman can understand them. A merchant at Burgas, Smyrna, or Galatz in the Levant asks of an American maker in Grand Rapids and of a German manufacturer in Coburg a price on one hundred refrigerators, inclusive of freight and all other charges, delivered at his port. The Grand Rapids firm, if it has never before shipped to Smyrna, Burgas, or Galatz, must make wide inquiries taking much time and trouble before being able to determine approximately what the transportation, terminal and forwarding charges by rail and steamer will be, for he will probably not be able to learn exactly what the charges of forwarding will be. After delays that may prevent his getting the order, he is obliged to name a price that will cover the possible difference between the compilation of freights and forwarding charges and what they may actually be upon foreign shipping lines. The Coburg manufacturer, by referring to the Levant ratebook under Coburg sees that refrigerators are listed in the eleventh classification, and that the rate, including land and water, is at the rate of marks 6.74 per 100 kilos for shipments under 5,000 kilos, marks 6.59 if beyond 5,000 kilos, and marks 6.42 if amounting to more than 10,000 kilos.

The railway administration undertakes also to be responsible, in connection with steamship companies, for the delivery of the shipment, so that the shipper, when he has paid the freight charges, need give himself no further concern. The railway management obtains for him a bill of lading when the goods are placed aboard a steamer at Hamburg or Bremen, upon which the shipper may obtain his money at a bank, or, if he prefers, may forward the bill to the consignee. The essential facts in the transaction are that the shipper has worked out for him in advance the exact cost of transportation and delivery, and that he is able to have the government look after the delivery of the goods with no further bother to himself than if he were mailing a letter with the proper postage prepaid. Thus export is enormously facilitated, especially for small concerns.—From "German Railway Policy," by Elmer Roberts, in the February SCRIBNER.

America and China.

"America and China are now bound together," writes Frederick McCormick in an article on "How America Got Into Manchuria," in the February "Century," first, by common recognition of the necessity to China of independence, integrity of territory and jurisdiction, and freedom of development and trade, to the promotion of which America is committed; and, second, by reason of common rewards and rebuffs sustained in promoting China's policy and America's diplomacy. Together with the invasion of the Hu-kang loan, the imperial sanction of the Kiu-chau-Angun contract completes America's entry into the Chinese empire. It supplies the desired basis, and displays the unprecedented opportunity achieved for American commerce and trade in the American influence in Eastern Asia by President Taft and Secretary Knox within the short period of two years.

#### Miss Taft, the President's Daughter

"Would any really normal American girl of eighteen hesitate long to give her choice between completing a college course and becoming first assistant leader of Washington official society?" says "Woman's Home Companion" for February. "Miss Helen Taft is an essentially normal, natural girl, with a well-balanced mind that finds pleasure alike in study, outdoor sport and society. Studious application being the family tradition, Miss Taft worked hard enough to win her scholarship at Bryn Mawr; but she was also sufficiently active in matters unrelated to books and lectures to earn a popularity that in the democracy of college life would not be accorded her simply as the President's daughter. During the present season it will be her duty—and no light duty—to serve as her mother's first lieutenant at dinners and receptions, official and otherwise, as well as to play her part at the livelier dances, musicales and entertainments of the younger set. Besides, she will presumably learn the routine of housekeeping in the White House. On the whole, an experience of Washington society, involving contact with some of the most brilliant minds of Europe and America, is not a bad post-collegiate course for a bright girl."

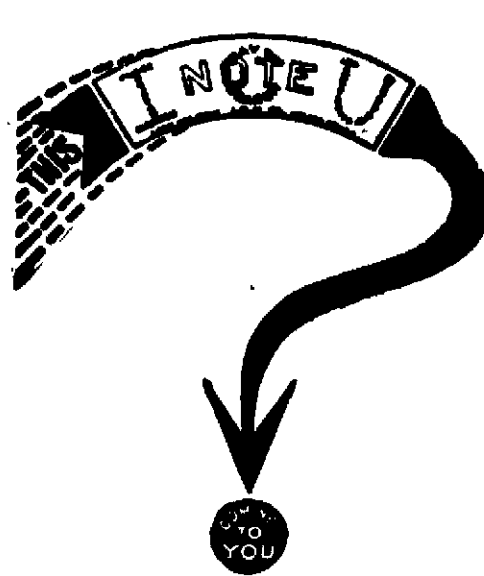

#### Polygamous Cities of Refuge.

In the February "McClure's," Burton J. Hendrick, in his article on "The Mormon Revival of Polygamy," says, in speaking of the many plural marriages made since the manifesto: "The desire for self-protection and secrecy has led to the establishment of several polygamous settlements. There are two within trolley-car distance of Salt Lake City—Forestdale and Bountiful. The polygamists sometimes maintain their 'legal families' in Salt Lake and stow away their celestial households in one of these places. Here, likewise, they send their wives for their confinements; the Mormons themselves commonly refer to such penitentials as 'jamming-grounds.' Forestdale is the suburb of the polygamous elite. Somewhat further down in the social scale is Bountiful. This place houses one thousand people, nearly all Mormons. Its history is redolent of polygamy; one of the sights pointed out to visitors is an old cellar in which polygamists used to secrete themselves in the days of the anti-polygamy raids. Even the children now talk these things over. 'My papa's been in the pen,' a little girl was recently heard to say. 'He's got two wives, you know.' The frequent complication of names betrays the existence of polygamous households."

#### The Great Express Monopoly.

"That public interest in the express business should at last be awakened will strike you as inevitable when once its size, ramifications and peculiar closeness to the daily life of the people are understood," writes Albert W. Atwood in the February "American Magazine" in a very remarkable article entitled "The Great Express Monopoly." Mr. Atwood shows that the express companies, six of whom control 90 per cent. of the country's business, have seized their tremendous privileges without legislative interference, and, although they are common carriers by every principle of law, common, judge-made, and statute, they have carried on their gigantic operations unhindered, charging what tariff seemed good to them, rolling up unheard of profits and assuming the duties which a neglected government should long ago have assigned to an organized parcels post. To show how closely the express business affects the public, Mr. Atwood describes as follows a few of the functions the companies perform:

"An express company will file legal documents, redeem pawned articles, collect notes, drafts and accounts. It will execute deeds, conveyances and contracts, enter and clear at custom-houses any desired articles of import and export, transport goods in bond to any desired port of entry, exchange foreign money, pay gas bills, and, in short, will attend to any legitimate business transaction as the customer's agent. Among the articles which an express company makes a specialty of transporting are gold, silver, bank notes, currency, deeds, contracts, precious stones, jewelry, watches, clocks, gold and silver ware, costly pictures, statuary, musical instruments, furs, silk, china, stained glass, birds and perishable goods. 'Perhaps you have thought of all this before, but do you also know that' (Continued on page three.)

### THE FEBRUARY MAGAZINES.

(Continued from Page 2.)

the six largest express companies are among our greatest bankers? With them in one year the public has deposited \$352,590,814 and their transactions in money orders. The American Express alone has handled nearly 17,000,000 money orders in one year. That the public has confidence in the safety of the express companies as banks admits of no doubt, and it has been credibly reported that in the panic of 1907 money was withdrawn from banks, which the people did not trust, and invested in express money orders.

#### Tetrazzina Sang For Frisco.

Among the fascinating pictures and articles from California brought by the February "Sunset" is an illustrated article on "Tetrazzina's Christmas Carol" telling how on last Christmas evening the great singer had sang on the streets of San Francisco. "It was a flood of angelic song poured forth in the heart of the city streets under the sparkling stars of Christmas eve. Those who must think in dollars measured the song on the basis of the diva's annual earnings, at \$2,500. (She had an audience of over a hundred thousand "dead heads" fully half of whom had paid to hear her elsewhere at one time or other. Tetrazzina sang joyously with no fear of the open air for the December night was soft and quiet. She sang "The Last Rose of Summer" and there is no last rose in California, in the home garden of the city a myriad roses were blooming daily. The singer a child of sunny Italy, cried, "This is my country, nowhere else could I sing like this, out-of-doors on Christmas eve."

#### Work for Better Homes

Among the many good things in "Good Housekeeping" for February is the article on "Dr. Bennett's Work for Better Homes." In an interview Dr. Laura B. Bennett who for nearly two years has been teaching personal hygiene and the physiology of sex at Los Angeles High School said, "There is one weak point in our educational system that needs reinforcement. If education is for anything it is to develop right conduct, right habits of mind and body—Wherein it works to that end, it is right. Wherein it fails, it is wrong and needs correction. In one such school are a thousand girls in the other half a thousand. Think what it means to have these eager young missionaries go into fifteen hundred homes and spread this gospel of good health among all their associates. I give them this text—that health is their most precious possession, that they can improve and conserve it, or waste and destroy it, and that, unlike any other possession, once it is lost, money will not buy it back."

#### "Criminal Matches."

"Among the many incendiaries destroying the property of the American nation," says Louis S. Amosson in Insurance Engineering, "none is more active than the 'criminal' friction match. In Harrisburg, Pa., a short time ago, a friction match dropped on the floor of the cellar was stepped upon and resulted in a property loss of nearly \$300,000.

"Had this been a safety match instead of a 'criminal' match no fire would have occurred. In many up to date European countries the 'criminal' match which ignites on anything is outlawed and safety matches are required to be used exclusively.

"Such a law in each of the States of the Union would save to the public and to the insurance companies millions of dollars annually. Three hundred thousand dollars is a high price to pay for one match, and friction matches are purchased every day in the year on that basis.

"The property loss resulting from the 'criminal' match unfortunately is only a small part of the damage done. Thousands of lives are lost; a whole army has been burned to death from the use of friction matches. Women with their flimsy gowns are often the victims of matches that ignite from being stepped on. The universal use of safety matches would save thousands of lives and millions of dollars worth of property.

"Safety matches cannot be ignited by rats or mice, by being stepped on, by packages or boxes falling on the floor or by any one of the numerous ways in which 'criminal' matches at present destroy life and property. If every public spirited citizen, including agents, managers, insurance commissioners and the press, would enlist in this cause it would mean increased safety for life and property. The 'criminal' match should be legislated out of existence in every State of the Union."

#### White Paint and Green Blinds

The February HOUSE BEAUTIFUL is crowded with interesting articles lavishly illustrated. On house planning there are articles on "A Successful Country House," "The A-B-C of House Design," "Some Types of Shingled Houses," "How to Furnish a Small Bungalow" and "A convenient Kitchen. There is a timely article on "Gardening" and the special contributions deal with "Ivy and Architecture," "Early Upholstery," "Rebuilding an Old Castle" and "Early Furniture of the Western Reserve." and other articles.

In article on a Country House the writer says, "How wise the old builders were, when they combined white paint and green blinds, and how the combination charms to-day when used in a modern house. In the many styles involved from the rise and development of new building materials, certain older phases lose none of their beauty."

#### Grand Work of American Fraternal Organizations

On October 1st, a leading insurance journal published the statement that the principal benefit societies of this country had together paid death benefits amounting to \$1,299,699,705. There had also been paid sick benefits amounting to \$408,519,023, making a grand total of \$1,708,218,728. It is estimated that the average death benefit was \$1,500, so that over \$66,000 families have been direct beneficiaries of this system of insurance.

A busy world gives little heed to these startling figures. In the whirlpool of strife and ambition, the great work which has been accomplished by American fraternal organizations attracts but little attention, and yet every great and noble action has fraternity for one of its surest and safest stays. Indeed, it is the very essence of our faith in American institutions. It has been one of the important wielding influences in war of every countending host. In every social reform and every march of industrial progress, class distinctions and arrogant assumption of authority melt beneath the power of fraternalism. In a word, it is the bulwark of American institutions.—James Byram, in the February National Magazine.

#### Chinese New Year

The Chinese New Year began last week and in Chinatown in many of our large cities the occasion was fittingly observed.

The year just begun is officially known as the third in the reign of Emperor Sing Hong and the 4608th since the inauguration of the Chinese calendar. Their year is of 12 months duration, but the commencement of the year does not always fall on the same date. Last year it was celebrated on February 9th. Some of the customs practiced by the Chinese at this season of the year are worthy of emulation by their Christian brethren, one of the requirements being that all debts be paid and another that all enmities be forgotten. All personalities are laid aside this week, regardless of past differences, and, incidentally, regardless of the attitudes they may care to assume next week, and warring factions are uniting in one harmonious week of jubilee.

MARGARET STARNER, daughter of Mr. and Mrs. Cyrus Starnier, was operated on at Harrisburg hospital for appendicitis.

#### ACKNOWLEDGE IT.

Gettysburg Has to Bow to the Inevitable—Scores of Citizens Prove It.

Mrs. M. Ohler, 116 W. Middle Street Gettysburg, Pa., says: "I was troubled by weak and disordered kidneys for over a year. My back ached constantly and pains extended from my loins into my head. I had chills and dizzy spells and was bothered by irregular passages of the kidney secretions. Doan's Kidney Pills were so highly recommended that I finally procured a box at the People's Drug Store and commenced their use. A few doses brought relief and after continuing the use of this remedy for a short time, all symptoms of my trouble had disappeared. Doan's Kidney Pills deserve my endorsement." (Statement given November 1, 1907.)

#### A WILLING CORROBORATION.

On January 8, 1910, when Mrs. Ohler was interviewed, she said: "I heartily recommend Doan's Kidney Pills again and confirm all I have previously said about them: This remedy should have a permanent place in every household."

## Hearing of James Pittenturf.

At the hearing of James M. Pittenturf in York last week, charged with assault and battery preferred by Harry Strickler, the alderman held Pittenturf in \$1000 bail to answer the charge. At the hearing it developed that Strickler had had an altercation with Pittenturf and getting a constable went to Pittenturf's boarding house without a warrant and the constable without showing any warrant or making known that he was an officer, went at Pittenturf when Strickler pointed him out and the fight with the constable then ensued. The alderman taking the view that Pittenturf was expected legally to know that the officer was an officer held Pittenturf to answer charge at court.

## Resolutions

At a meeting of the Gettysburg Aerie, No. 1562 F. O. E. held Friday evening, February 3rd, 1911, the following action was adopted:

Whereas—The unerring will of Providence has permitted the cruel hand of death to remove from our Aerie our Brother Edward E. McCreary, and

Whereas—Gettysburg Aerie No. 1562 F. O. E. in this little tribute of loving remembrance desires to express appropriate regard and esteem for him as one of our members, and a sense of the loss we have sustained by his death. Therefore

Resolved—That in his death we have lost a member who was ever ready to work for the success of our Aerie.

Resolved—That our sincere sympathies, although inadequate and powerless to lessen the sorrow, be extended to his bereaved wife and daughter, in this the saddest of all dispensations.

Resolved,—That as a mark of respect we drape our charter for thirty days, and that this action be published in the town papers, spread upon our minutes, and an official copy sent to the bereaved family

## F. E. B.

We heard a man say the other morning that the abbreviation for February—Feb.—means freeze everybody, and that man looked frozen in his ulster. It was apparent that he needed the kind of warmth that stays, the warmth that reaches from head to foot, all over the body. We could have told him from personal knowledge that Hood's Sarsaparilla gives permanent warmth, it invigorates the blood and speeds it along through artery and vein, and really fits men and women, boys and girls, to enjoy cold weather and resist the attacks of disease. It gives the right kind of warmth, stimulates and strengthens at the same time, and all its benefits are lasting. There may be a suggestion in this for you

He was born at Centre Hall, Pa., and his education was interrupted by the Civil War through which he served, holding the rank of captain and staff officer of the Second Corps, Army of the Potomac. He was twice wounded in battle. After the war he resumed his studies, graduating from the Theological Seminary of this place in 1871. He served as a missionary at Guntur, India, from 1871 to 1876. Returning to this country he served as pastor in churches in Kansas, New Jersey and Ohio. He returned to India in 1893 and came back to this country in 1902. The Board of Foreign Missions of the General Council in 1902 asking the Board of General Synod to release him, he was sent by the former to India and did not return to this country until 1909 and has been occupied since in presenting the cause of missions to all parts of the country. ## ECKERT'S STORE "ON THE SQUARE"

Spring Sales in Adams County-1911

Spring sales to be successful must have bidders who want the goods sold. Bidders go to sales because of information in hand of stock or property to be sold that they want. The business of every farmer having a sale is to give information to bidders of what is to be sold so as to induce them to come to sale. In other words every sale should be thoroughly advertised to bring the bidders and make a good sale. The COMPILER has been considered the best medium in the county for the advertisement of spring sales. Send or bring in your sale lists to the COMPILER and make sure that the thousands who read the COMPILER will have the opportunity of knowing what you have to sell and going to your sale for the advertised goods.
